USING ONLINE

Studies Weekly Online Resources

For Teachers

As you scroll down, the section **under each article** is a virtual gold mine for teachers.

Here, teachers find weekly unit resources, such as: lesson plans, a digital Teacher Edition, worksheets, videos, SEL resources, leveled readers, and standard correlations.

The screenshot shows a video player interface. At the top, the title 'Types of Maps' is displayed. Below the title, there is a video player with a progress bar at 0:00 / 0:23, a volume icon, and a 'Watch Video' button. To the right of the video player, there are five star icons for rating and a 'Bonus Sources' button with a '60' badge. The main content area contains text explaining different types of maps: physical maps (mountains, water), political maps (boundaries), and theme maps (regions, population). To the right of the text are three map images: a world physical map, a US political map, and a Florida theme map. At the bottom of the content area, there are 'Prev' and 'Next' navigation buttons with subtext: 'Cardinal and Intermediate Directions' and 'Map Coordinates'.
